

*****PLEASE READ LETTER CAREFULLY FOR NEW GUIDELINES*****

January 27, 2023

Dear Wildlife Enthusiast:

To aid you in planting wildlife food plots, Wildlife Mississippi is continuing its popular Wildlife Habitat Seed Program. It is designed to provide an incentive to establish and maintain food plots that will yield a variety of benefits to you as well as the species of wildlife you are managing. When planted properly, the seed will be utilized by a variety of wildlife. White-tailed deer, turkey, quail, mourning dove and many species of songbirds will benefit from these plantings.

Corn, grain sorghum, and soybean seed will be available through the 2023 Wildlife Habitat Seed Program. All seed has been treated and has excellent germination rates. **Winter wheat will be offered for pre-order in the Spring. Shipment of winter wheat will not be until the Fall distribution, which will be in September.**
